

Notes from St. Patrick School Office Week of April 1, 2019

Auction Update – Our thanks to all who participated in any way to make the auction a success. We will have a more accurate accounting after all bills are paid and a few ads that will be invoiced. There were about 250 guests in attendance who enjoyed bidding, eating, laughing, dancing, and the fun of being with friends who support St. Patrick School. Thank you!

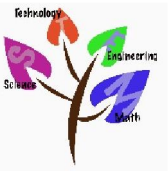

Yearbooks – We have a **few** yearbooks for sale. Please send \$16 if you are interested. They will be sold on a **first come, first served basis**.

Tuition notice from Carla Hahn, Tuition Manager 429-5363. The fee schedule for 2019-2020 tuition and fees has been set by the parish Finance Council. Please note that we are returning to a schedule that has discounts at three levels instead of two. We will grandfather any family that currently has more than two children in grades K through 8 (this does NOT include children in Pre-K); they will pay the rate for two children next year. There is also an increase in registration and computer/book fees. There has not been an increase in these fees for many years, even though costs have increased. If you have any questions please call Carla, 429-5363.

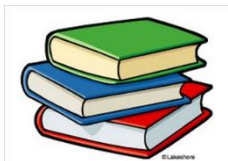

Scholastic Bowl – Congratulations to the St. Patrick Scholastic Bowl team. The current Varsity score is 2-2 with several more meets remaining to be played. St. Patrick School coaches have volunteered to sponsor the Regional meet in late April to be held at St. Teresa High School.

Bingo Workers – Working Bingo is a great way of earning tuition credit of \$40 per night from 5:00pm until 9:00pm every Monday evening at the Macon County Fairgrounds. Due to a lack of our families wanting to earn tuition credit, we are giving credit to St. Teresa workers. Please volunteer for Bingo. Bingo really does help with tuition. Several families have already paid for the majority of their tuition with Bingo hours.

STEM / STREAM – Ask your child about last week's Hydro-Power project held in the school cafeteria. The push is to improve skills in science, technology, engineering, math, reading, art, and creative thinking and ingenuity to solve real-world problems. This event was funded by ADM. The next STREAM project is Solar Power.

New Library Books – Thanks to our many supporters of the book fair St. Patrick School received \$1,654.00 worth of new library books. These books will be scanned and entered into the computer system which tracks all library books.

Monday, April 1, 2019
